On April 24, 2013 ROBLOX announced that Builders Club would now cost 5 USD per month. As of 2017, Builders Club is no longer offered.

On October 10, 2013 it was announced that you could now make game passes and sell them in the catalog for ROBUX or BC (Builders Concession). This includes some advantages over Free Mode such as being able to add a game trailer video, change the description of the game and enable the Flashlight on other players' devices. New users will begin with 100 ROBUX which is \$1 USD when they sign up for a new account. However, any user may donate any amount of ROBUX to get more in return.

I love how you can play with your friends but I wish that it was easier to make friends, and I also think that there should be more options to choose from when it comes to picking a skin, and I also wish that there were more games with different kinds of genres like horror or even some kitty games for cute lovers.

One of ROBLOX's main rivals is Tencent, a Chinese company. The two companies even share employees and developers, including the current admin. ROBLOX as well as Tencent are often compared to each other due to their similarities.

They say content is king, and this statement could not be more accurate for Roblox. Why? Because on Roblox, players are able to make their own games within the game itself! These games are called "games" or "sims," and they can be accessed from a GUI called "The Catalog." There are tons of free games that players have created and uploaded for others to play. In order to play these games, you have to purchase them using free robux. You can also make your own game and make it either free for others to play or charge for everyone else to play.

Some of the games on ROBLOX display ads on the top of their players' screen during gameplay. The player is able to skip these ads after 5 seconds, but if they do not and instead wait to see them out, then they will receive a small amount of ROBUX. In addition, members receive 30% extra revenue from games with ads placed above them.
