In August 2016, Roblox announced that they would be offering their service in China. ROBLOX later confirmed that they started to accept users from China in September 2017, during beta testing.[62] Due to Roblox's popularity on Steam Greenlight, they were removed from the platform as of October 17th, 2014.

HelloRoblox is a generator that subscribes you to different YouTube channels. When you click on the Subscribe button, it will prompt you for your e-mail address. This is where they will send the free robux once you've earned enough. A video with over 50,000 views can earn you around 100 free robux, while videos with over 10 million views can give 500+ free robux!

They have also created a website called ROBLOX Studios which allows users to create and upload their own videos to YouTube in order to advertise their videos as well as doing tasks that can be made money such as editing videos, building websites, etc.[47]

I downloaded Robloxian Life from the App Store (it is free). After creating my character, I found myself in an unfamiliar location. There were trees everywhere! No sidewalks or buildings to view through my character's eyes. I began to look around for landmarks so I could find my house. Soon, I found it. An old abandoned house; the perfect place for me to live and work in the game! There were no other houses around, so I thought this one was mine! It wasn't long after my character had moved in that another player decided to move into my house. They didn't like my treehouse. They wanted to build a new house where there were trees and nobody could see inside. I thought it was a great idea! The next day, they created a new building and started working on an addition to the house themselves. Soon enough, our houses were completely different from each other; each one had its own unique features and decorations. After a couple days, I decided as the "host" of both houses that I wanted to make them look alike. I bought my friend's house and used the money to buy some items and paint to change his house into mine. The next day I was playing Robloxian Life, only to find out that my new house had been destroyed by one of my friends during the night. He asked me why I had changed his home. He said he liked his original house better than mine. Somehow, he managed to get at my items and destroy everything I had built in one night. I had no choice but to remove him from the game. I never really wanted to keep the house he destroyed, so I got it demolished and sold.

On September 22nd, 2012, a head developer from the website Games Done Quick sent a cease and desist letter to Roblox because they were using code that he had created without permission. This is one of the few situations where ROBLOX has deleted all of its assets to avoid legal issues.
