I love Roblox, but there are a few issues that I think need to be fixed. I have noticed that there is a lot of adult themes, and people swear a lot (which is not acceptable, it should only be in forums, not in game). It also needs more updates. In my opinion you should only take down the website if you combat online harassment or if someone steals someone else's idea. You can't create an account with your email address or password because the website doesn't know who you are. It only knows your username which is so unfair because someone could send harassing messages to other players without them knowing the real person. You should add more games and less glitches, with more updates. I really hope you take my suggestions into consideration, it would be great if you fixed all the big issues in Roblox.

In 2010, they added an in-game browser which allows players to purchase resources with Robux from other players (mostly games). In 2014, they changed their website to a Flash-based platform. On November 11th of that year, the company finally launched their mobile app for iOS and Android devices.

More Features: It is very easy and straightforward. Go to Rosetta Brothers Robux Generator. Click "Generate Robux". After A Few Minutes, You will Have Enough Robux To Buy Cool Items And Weapon.

If you are looking for more features in order to get free robux for roblox without having to spend real money, then this is the right app that will help you out with everything that you need. You will be able to generate free robux and that will be enough for you to buy cool items and invest in some cool weapons.
