On March 13th, 2019, ROBLOX announced that they were working on a new anti-fraud system called "Real Account Verification." This system verifies account information by sending a link from one of their partners to the user's email address. For this new security feature, ROBLOX will be using the services of Verified Identity Partners. The system is expected to be completed in late 2019. [30]

In January 2017, Roblox permanently banned all accounts that were created by Arielle De La Rosa. The company said it was because of her "continued behavior", which included actions such as creating Emily Roe and harassing other users, as mentioned above. Although she had been blocked from Roblox for over a year, they said their original ban for her had been lifted in November 2016. They also stated that she could no longer be unblocked on their platform because of previous harassment reports against other players. The ban was not for her actions, but instead because of the continued harassment she had done.

Rated 5 out of 5 by Anonymous from Super fun, but gets expensive Really fun game, and very realistic in-game items. However after a while, it can get pretty expensive. It is currently \$8.99 USD to purchase an additional character slot. Definitely worth it at first, but you will eventually outgrow the game if you don't have the money.
