The company released "Build a Buddy" in February 2018, which allows users to create customizable figures of themselves. On November 13, 2018 ROBLOX released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.

What I would love to see is more updates for games like minecraft, and many more updates. Also to add new games such as an RPG game (something similar to LOTRO) maybe something similar to wow where you come out of the game and control different characters. If we all work together we can get Roblox updated with these new games instead of waiting till now where there are a lot of glitches.

This is mostly used for buying virtual items such as weapons or accessories on Roblox's marketplace and selling them at a profit, which is rather common as people often sell their in-game belongings/items for real money .

Afterwards, ROBLOX began taking action on these cases and will be using an automated system to monitor all transactions for suspicious activity. [43]ROBLOX has also been known to restrict the number of items that a player can sell. This is because many people would sell off too much of their collection to gain more currency, which can make it harder for other players to find popular items.[44]

On December 20, 2016, a 12-year-old girl in Las Vegas named Arielle De La Rosa was banned from Roblox for what she believed was a "harassment campaign". She had created a character named Emily Roe that she used to bully another player online. The bullying campaign went on for over a year until it came to her parents' attention and they contacted Roblox about it. The harassment campaign violated the Child Online Privacy Protection Act (COPPA). Her parents encouraged her to create a character named "Emily Roe" and they hoped that this would help her get unbanned from Roblox.
