ROBLOX has been used in many digital projects. It was also created into the game "Pack for Hire" on the Apple App Store. The game is about viruses and viruses are put into a ROBLOX box and then put onto the other computer to infect it.

In August 2017, a former employee posted a blog post detailing the company's "toxic" work culture and poor working conditions. The employee claimed that she was fired after speaking out about these issues and later filed a wrongful termination lawsuit against the company as well as several co-workers associated with her firing. The suit, which for the most part was dismissed, claimed that former CEO David Baszucki played an integral role in her firing as he forced the team to "ignore basic standards of professionalism". It also cited him for saying that "female workers in [his] office and in the tech industry were 'annoying' and should not serve in a high-ranking position."

If you play "Robloxian life" long enough, you'll notice that the costs really add up. For every point someone wins, the game will cost the player between \$3-\$10 depending on how many points are needed to win a double prize. Although this is not completely true for all games, it does affect most games so players can expect to spend a lot of money just for some points or winning prizes.

I like roblox but it is still not better than minecraft in my opinion because minecraft have so much stuff, people can do a lot of stuff. I think Roblox needs to get a lot of money so they can improve more stuff than they already got. I love roblox but I still think that it could be way better, so here is some of my ideas 1. It should have better graphics 2. It should have better game servers 3. There should be more new games, but there is a thing what I don't like about roblox is that the games are kind of the same every single time, and you end up playing them too many times 4. The games should either really get harder or really easier

I have always had problems with this game and there are many other people who do too. Like the fact that you can't change your name when your in a group with a lot of people and it makes me very mad when I can't change it because I feel like I am stuck with the name that I have. This also happens when one of my friends gets on my head and they change their name to a bad word which makes me really mad because if someone else was in the group with us then they would be able to see that bad word in big letters. It also makes me mad for a different reason because I really like my name. Anyway, I hope these bugs get fixed in ROBLOX or the next update of ROBLOX.
