ROBLOX released a new website design on August 1, 2017 (10:00 AM). This redesign changes many things for user convenience, also the entire site was re-coded from scratch to be more efficient. The creators of ROBLOX have a goal for ROBLOX to be widely used in all aspects of life and they wanted people around the world to have access to ROBLOX. To achieve that, this redesign is part of their overall plan which includes global expansions.

This doesn't really have a name, in order to get free robux on roblox simply open the shop, buy one of the cheapest things that is available and then go to your inventory. You will notice that for some reason, you have been charged 2 tickets (which are used to place an item in the shop) and that you have 1 robux left.

There are many ways that one can use the free robux script and some include: Automating tasks to make the user's future activities easier. This is done through combining several programs for people who have multiple social media platforms like Instagram, Facebook, etc. Easy access to relevant posts for the user's activities including Facebook posts and other social media outlets. This is made possible since the user's feed will be full of relevant articles, which lead to increased engagement by other users. Helping users save time and energy from carrying out repetitive tasks all over again. This helps an individual save their time on different activity by having their schedules automated using a free robux script.

On November 24th 2018, the game was reuploaded on ROBLOX and was named simply "Anthem". It is the exact same game as before with no changes or improvements.[90] ROBLOX 3D: On December 23rd 2018, ROBLOX released a new version of their website called "Roblox 3D". The company claimed that it was meant to be an improved version of their 2014 release. The 3D design features many new animations and tools for users to create models. They also put a lot of time into making it look more modern.

On February 16th, 2018, ROBLOX's main Twitter account was hacked by a group that goes by the name "RIP Roblox." This prompted some users to make spam on the forums. The group also hacked ROBLOX's official Twitch page. They claimed to be doing this because they found a security glitch that allows them to bypass site security and touch other people's accounts to steal their virtual currency.[19] They later stated that they were done with their attack and did not release the method of how they were able to bypass ROBLOX's security, as ROBLOX did not provide them with any compensation.
