The founder of ROBLOX is David Baszucki as a 13-year-old boy in 1996. He was a freshman at Palo Alto High School in Palo Alto, California and had been working on a computer program that was similar to ROBLOX called "Pyxis". He worked with his friend Owen Hill to create new ideas for the program until it became possible for others to play the game without downloading any additional software.

On January 1st 2019, ROBLOX released a new core version update for their engine. They are now using a new source engine called "Bloxlet" and integrated a new built-in physics engine into the game. This feature will allow users to play in one of three different modes: Classic ROBLOX mode which uses the older physics system from ROBLOX, Bloxlet mode which uses the new physics system in ROBLOX 2.0 and fixed bugs, and Customized mode which allows players to customize their own physics setting. This update was expected to start being released in-game on January 15th 2019.[101] This release ended up having some bugs which caused users to get stuck in the game and crashes.[102] However an update was released a few days later, which fixed most of the bugs and added more control for players to customize their suitable physics settings.

Tickets are the secondary currency in Roblox; they can be used to purchase a variety of vehicles, gear (backpacks, jet packs, and recovery kits), weapons (grants a player additional hit points upon taking damage), and other items. In order to purchase most of the premium items from the store, one must own more tickets than is currently available in the user's inventory. The minimum one-time purchase of tickets is US$5 ($8 Note: this price has been around since 2015 but was not posted until 2017).

Players could also get banned by moderators for sending unwanted messages to other users. A moderator could then ban a player's account for spamming other accounts or trying to bypass chat filters. There are other forms of trolling which can be found on Roblox today.

If you have never played "Robloxian life" then it won't be easy for you to get Robux because you'll have to do tasks, watch videos, spam the chat, and probably a lot more. If you want Robux fast, then this may not be your best game.
