On January 13th, 2019, ROBLOX implemented broader anti-fraud features called "Secure Trading." The system is designed to prevent fraud such as fake accounts/bots, selling stolen virtual currency and more. It is also designed to allow users to trade in a safer environment. [28]

Blocks are awarded when the user is rewarded items from certain games, such as VIP and daily bonus. They can be exchanged for ROBUX. The amount of ROBUX gained from converting blocks depends on how much you have, but the minimum is 10 ROBUX per block; for example, if you have 300 blocks, you will receive 3,000 ROBUX (300 x 10). In this way, players can use blocks to obtain ROBUX without having to purchase a Builder's Club subscription.

In order to check whether or not an app is safe to download, I have compiled a list that will show all of the apps that are 100% safe and you can directly download them from Google Play Store. Read my previous article titled "How To Download Apps Safely From Google Play Store". You should check it out as well.

Rated 5 out of 5 by Anonymous from So much fun I love this game so much! There is no fighting, just chatting with your friends online and there are no missions or quests to complete to play this game. It has no age limit either, so younger kids can join in.

ROBLOX's Terms of Service has many loopholes which allows users to get away with nearly anything, such as selling products that have been stolen from other users or using bots for their own gain. The system is also very inconsistent in how it deals with complaints and bans. One of the more infamous examples is user "Sephiroth", who had been banned for attempting to distribute his game, "TitanMC". The ban was eventually lifted, and the account became widely regarded as a joke.[11]
