ROBLOX's Terms of Service has many loopholes which allows users to get away with nearly anything, such as selling products that have been stolen from other users or using bots for their own gain. The system is also very inconsistent in how it deals with complaints and bans. One of the more infamous examples is user "Sephiroth", who had been banned for attempting to distribute his game, "TitanMC". The ban was eventually lifted, and the account became widely regarded as a joke.[11]

Roblox uses multiple methods of advertising. They first started advertising on websites like Nickelodeon, but they have moved to focusing on social media sites like Facebook and Twitter.[66] Roblox also primarily advertises at gaming conventions such as E3 and Minecon. Roblox has an official YouTube channel on which they occasionally stream live events called "Developer Live", where Roblox employees give sneak peeks of upcoming features.[67] They have also recently released a list of YouTubers that are apart of their Developer Program called the "Roblox Ambassador Program". These YouTubers are able to test new features in Roblox before anyone else with the exception of Google employees.

In 2018, the company announced that they would be adding new measures in an attempt to stop children from getting weapons and access to violent themes. These measures include making it mandatory for anyone under the age of 13 to provide proof of identity when signing up for a Roblox account. The report also stated that the company has a team of moderators who work with different groups such as parents and educators to monitor games and stop users from being able to access offensive content.

However, if you are not interested in getting free robux for roblox and you are just looking for some different features, then this application is the one that should be downloaded because it works perfectly without any problems after some time has passed by. You won't encounter any problems with it and that will be the best thing about it. This will work on every ROBLOX game so there is no need to worry at all.

On August 4th 2018, it was revealed that many well known ROBLOX users made fake accounts in order to copy their friends' progress. These fake accounts had the same username and picture as the original account owner but had no friends. Once these fake accounts gained a good amount of currency, they would join a game then buy the maximum amount of slots possible. The real account owner would notice that their account was missing and look at the fake profile's profile. While there were no friends, there were tons of transactions for items such as a \$100-\$150 purchase for 5000 robux. This could have been used to raise their reputation and potentially, make them more money.
