I like roblox but it is still not better than minecraft in my opinion because minecraft have so much stuff, people can do a lot of stuff. I think Roblox needs to get a lot of money so they can improve more stuff than they already got. I love roblox but I still think that it could be way better, so here is some of my ideas 1. It should have better graphics 2. It should have better game servers 3. There should be more new games, but there is a thing what I don't like about roblox is that the games are kind of the same every single time, and you end up playing them too many times 4. The games should either really get harder or really easier

I am not a Minecraft addict, but I do enjoy playing that game. However, that is only because my friends and I play it together. Not because of the millions of dollars or diamonds you can get for free on Roblox. People are obsessed with Roblox; my Facebook account was filled with friends who played Minecraft as if they were addicted to crack. They would constantly post pictures about their new lifesize cardboard builds they worked on at home; taking ages-long breaks between each video to watch more videos of minecraft. We've all had friends who were that addicted to Roblox in our time, but I have never met one like Sinead who was "deeply miserable" because she was deprived of playing it. That was always the case whenever anyone mentioned it, I'm sure; parents would frequently ask me if and how I managed to get my grades, and teachers would always ask me if we had any homework. Sometimes they'd even assign us essays to write about our time on Roblox; even though a few months before everyone stopped doing them unless they were mandatory.

As of April 2018, there are over 2,000 games on Roblox. Many of them are "clones" of other players' games made by other players, which can lead to copyright issues if the original creators do not want to share their work. Players may be able to report these games as well as block people who play them from their online profiles or in-game friends list. Some games have caused controversy with their focus on violence, sexuality and racism. However, Roblox staff have stated that the problem lies in the people who play these games, not in the games themselves.

The first product launched by ROBLOX was "Builders Club" on May 21, 2006 which allowed players to create 3D environments and watch other players' creations online. This product was followed by "Dance Off" on November 29, 2006. Both of these games had been in development since the launch of the website; "Dance Off" being originally named "Crazy Dance Fight". In 2007, ROBLOX launched a new line of products called "Roblox Toys". The first and only one to be released at that time was "Helicopter", which was shipped in December 2007.
