The way Roblox works is by creating an account. In this account, you will be able to make your own avatar that you can customize to look however you want it to. With this avatar, you can go on to explore the different places and games in Roblox. You can interact with other players that you meet in the game and even chat with them. There are many different categories of games that you can choose from to play and I like this because you have a lot of options to choose from. One thing that I think is great about Roblox is that you do not need to pay any money to play it all the time. This is because you can buy Robux in order to use it for building purposes or for upgrading your avatar. This is great because rather than just paying and continuing to play, if people don't want to pay they don't have to.

Rated 5 out of 5 by Anonymous from My favorite game I love Roblox. It is fun and it can help with school work. It's a bit pricey but worth it. Rated 5 out of 5 by Anonymous from love this game i love this game! it's really good for my age group, except the fact that you have to pay 30\$ or so to get wings which aren't even that good to begin with! they don't even fly that great, plus they only last for about 3 minutes anyway... other than that it's a great game!

ROBLOX has created a number of recurring events over the years. On October 23, 2012 Robotcrab had announced a new way for Roblox users to make money by selling virtual items in the Roblox catalog: the "Builders Club". Players use Roblox's in-game currency, called ROBUX, to purchase items which they can sell to other players.

On August 28th, 2019 ROBLOX announced the discontinuation of ROBLOX Custom Physics in favor of Bloxlet. This will eventually be released as an update so that all games made for Classic ROBLOX mode will automatically have the new physics system in place, but there is an unknown future for what will happen to those games when the discontinuation happens.

In December 2011, a lawsuit was filed against Roblox for copyright infringement, in which ROBLOX is accused of copying the entire codebase and game assets of "Infinity: The Quest to the End of the Universe". A cease and desist was also filed against ROBLOX in September 2012 by a head developer from the website Games Done Quick for using their copyrighted content without permission.
