The Free Robux application is compatible with almost every device, and can be used to play games on the computer or on your smartphone. This means that users can play games offline when they are not connected to the internet. The 100Robux app is compatible with the devices which launch in 2017, such as iPhone 7, Samsung Galaxy S8 and Google Pixel.

Because the codes were removed, many players are currently trying to figure out how to get free robux without getting scammed. Players who are too young to have an account and/or don't have a credit card can still get free robux by following these steps:

Some people also complain about the game being too confusing and requiring so much effort just to make 1 point or get Robux, even though it only takes about 3-6 hours of playing. They say that "Robloxian life" is actually a scam and they struggled to get it.

On March 13th, 2019, ROBLOX announced that they were working on a new anti-fraud system called "Real Account Verification." This system verifies account information by sending a link from one of their partners to the user's email address. For this new security feature, ROBLOX will be using the services of Verified Identity Partners. The system is expected to be completed in late 2019. [30]

On February 11, 2017, ROBLOX announced that they would be suing the website of DinoGaming Network for copyright infringement.[5] It was revealed that DinoGaming Network was using ROBLOX models with permission from their owners. However, DinoGaming's policy on asking for permission to use a model is so loose that any user could have given them permission without knowing it. On March 7th, 2016 the lawsuit ended with a settlement and \$7,500 awarded to ROBLOX. [6]
