Rated 5 out of 5 by Anonymous from Awesome! Roblox is SO fun! You can download it for free and make your own games with your friends... It's really fun and I recommend it to everyone!!!!

ROBLOX has official clients for Windows, macOS, Linux, iOS, Android, Xbox One, and PlayStation 4. ROBLOX also has a game engine called "Build" which can be downloaded for free to those wishing to develop games for their website. Although not officially supported by ROBLOX themselves, the client source code is also available on GitHub. As such, there are unofficial ports of ROBLOX to other platforms not supported officially by ROBLOX such as Xbox 360, Raspberry Pi and Tizen. An early attempt at an iPhone port in 2010 was unsuccessful due to concerns over the stability of the platform and a lack of toolchain support.

The more points that you earn, the more robux that will be credited to your account. Surveys are usually quick and easy, so no sweat! There are 3 different types of surveys: desktop or laptop online surveys for 10-20 minutes; mobile surveys at home or on the go from 30 seconds – 2 minutes; and video game market research for 15-20 minutes.

If that never happens then the servers are going to crash and the game will die. If you take a look at the way ROBLOX's developers are trying to make even more money, you will see that they do not want to add any real value to their games. They want people to spend real money for fake money (robux) so they're going to make it so that it's impossible for someone who doesn't pay for robux to exist within their virtual world.
