In January 2021, the Roblox developers said they will be working with an external security firm to enforce a set of rules, and would only support third-party software that is approved by their partners.

Robux. Robux is the currency of roblox that can be purchased with real money, although there are also other ways to receive them within the system of roblox itself. The way they work is very simple - you can use Robux to purchase in-game items, such as clothes for your character or even full-on animations such as dances and others. This adds a form of virtual economy to the game which adds depth and meaning into it - although the impact of the impact that this has on the game can be debated heavily depending on who you talk to. This means that, while there is a sense of the possibility of winning content within the game - there is no chance of getting content without paying for it.

The "Roblox Pass" feature is only available to users on the official ROBLOX website and all other versions of the game will have to be paid for.

Also when using the 100Robux app, there is no risk of your account being banned or anything because it is just a game app.

For example, the price of a hat called "Duck" would be listed as Duck item. If a player bought the Duck item for 5 Robux, it would cost 5 Robux once he bought it.
