ROBLOX has banned thousands of accounts, usually for viral videos made by "trolls" or people who want to annoy other users/admins. Most of the bans these users receive are handed out by administrators but every once in a while a user will get banned for a "troll" video or similar reason. Some are also apparently banned because they made potentially offensive comments in the chatbox, not for any type of post or action that breaks the TOS.

On April 13, 2016, ROBLOX partnered with Nintendo to release a catalogue of upcoming Nintendo Switch games. On June 18, 2016, ROBLOX partnered with Rockstar Games to release an online game based on Grand Theft Auto V. The game was released on July 2 for both PC/Mac and Android devices. The iOS version of the game was made available in December 2016. In October 2017, ROBLOX also launched their version of PayDay 2 which is now available for iOS devices. 2018 also saw the partnership with Activision to promote the release of Call of Duty: Black Ops 4. In addition, iOS users would be able to play Black Ops 3.

You can unlock new gear for your character by completing different adventures or collecting coins from different obstacles in-game. The more you explore and play, the more prizes you get!

ROBLOX has also been criticised for being very difficult to use and has many bugs within the site interface itself, problems which seem to go unresolved by the development team despite repeated complaints over a number of years. Although the website's interface is not difficult to use, it has become more complex over the years with features such as video editing with a dedicated program and large amounts of unnecessary superfluous features. Some of the features include: UIs for uploading and viewing custom models, importing music, applications, and sounds; importing sounds from WAV files; creating galleries; creating art sheets; creating an unlimited amount of variations for models by changing their scale and pose; adding animations to models (e.g. walking); creating global themes which change every time you go into a game or lobby; creating global music tracks in . ROBLOX's interface has also become extremely frustrating, with a lot of features being inaccessible and hidden because of the aforementioned complexity.

Rated 4 out of 5 by Anonymous from Great Game, but Expensive ROBLOX is one of the best games I've played on my computer, but it is very expensive. It's not only expensive, but it's time consuming to get points for what you want in the game. Overall, I would recommend this game to people who like games that involve creativity and imagination in a game. Rated 5 out of 5 by Anonymous from Best Game Ever ROBLOX is one of the best games ever. I think that everyone should play it, it's great for all ages!
