Roblox is a video game platform created by American programmer David Baszucki in 2006 as a social game for children ages 8 to 13. The game is free to play, but contains some limitations like the amount of characters and objects that can be placed in a single game.

In March 2018, ROBLOX introduced "VRChat", a game where players can create their own social VR experiences and attend live events. This game was released as a beta version on Steam Early Access in March 2018. A release on PlayStation 4 is planned for August 28, 2018.

"Robloxian life" has actually changed how people view games now. People used to spend hours and hours in games without even noticing that time has passed because they were involved with the game's world. Suddenly, they realize their time is running out and that no one is helping them out for example.

The free robux promo codes for roblox are being used with increasing regularity. The promotion of these types of codes is also increasing the number of players that are using it. The codes are also being used to play a lot of the most popular games on the site, especially games that are from veteran developers.
