I love Roblox, but sometimes it's hard to keep the game up and you seem to be forced to buy certain games. I think there should be a better way of getting new people in the game and not having so many bad games out there. Everyone is trying to make money off of Roblox, which is good, but I just wish that they could make more updates for the games and keep them working properly.

Some parents of children who play the game have said that it is due to inappropriate content and language that their children are spending so much time on the site. Some of these parents reported being harassed by other players on the site when they themselves criticized Roblox. One parent said that far from being a "quality of life" game for his child, it was being used as a distraction to escape from reality. The following comments were made:

If you have been looking for a way to hack roblox without having to spend money then the best idea is to use this hack tool. It is free, and there are no catches! You can be sure that you will not get banned in the game for using these cheats.

The majority of players on ROBLOX do not have any way to benefit from the game anymore because they're not willing to pay real money for fake money (robux), so they get bored and quit. They know there is no value in this game so why should they waste their time on it?

The main reason for this update was to make ROBLOX a lot more social, as at the time the website only had game-based features. Also, players can now buy items (e.g., skins & backgrounds) with in-game currency and have them delivered to their homes.
