ROBLOX uses cookies, a small piece of data containing a unique identification number that is sent to the user's browser from the web server and stored on the user's computer hard drive. By storing on the hard drive, ROBLOX is able to recall user preferences and settings, such as game scores or user names. ROBLOX uses cookies to monitor how users use the platform as well as how effective its ads are at converting users into paying customers.[3]

ROBLOX has also been criticized on another level. Many people have said that they will never use ROBLOX again after the lack of response from the administration team. This is because even after reporting rule breakings, there is still no action taken against the players who do so. This has caused people to lose respect for the administration team.

As of February 2018, ROBLOX has over 62 million users. [51] In 2017, ROBLOX added a new currency called "Tix". These Tix are used to buy Tickets at the store; the more you spend, the better prizes you get. These tickets can be spent on exclusive items such as Christmas hats. [52]

In ROBLOX, you can unlock the most exclusive gear by getting it directly in-game with a single purchase of ROBUX! But no one has ever figured out how to get it from outside the game! This is because all of the ROBUX you buy in game are for virtual currencies and have absolutely no real-world value. Whether you're a player or an admin, this is a secret worth keeping.

I like roblox but it is still not better than minecraft in my opinion because minecraft have so much stuff, people can do a lot of stuff. I think Roblox needs to get a lot of money so they can improve more stuff than they already got. I love roblox but I still think that it could be way better, so here is some of my ideas 1. It should have better graphics 2. It should have better game servers 3. There should be more new games, but there is a thing what I don't like about roblox is that the games are kind of the same every single time, and you end up playing them too many times 4. The games should either really get harder or really easier
