This doesn't really have a name, in order to get free robux on roblox simply open the shop, buy one of the cheapest things that is available and then go to your inventory. You will notice that for some reason, you have been charged 2 tickets (which are used to place an item in the shop) and that you have 1 robux left.

If you look at the way the majority of games are played you realize that one person or a group of players will have a significant advantage over another unfairly and those who aren't as good will be forced to pay more for their virtual items in order to keep up with the better players. That's not fun.

One of the most important things you need to know is that there is no way to get free robux in the game. While users can try to create a game where they can earn some free robux, this is usually not a popular option. Instead, gamers are more interested in using other methods that allow them to get free robux on their accounts without having to pay any fees. For example, you could ask your friends for a small amount of robux that they have already obtained from playing games on their profiles. They might be happy to help you out since they know you are currently working on completing a project.

Not only that, but since "Robloxian life" lasts so long, many players have to pay to charge their battery or buy power packs and if players don't have enough money to spend, they can lose interest.

On September 3, 2014 (8:00 PM), ROBLOX released a new website design and many changes to the graphic. The new design is much cleaner and easier to navigate. It also includes more screenshots of games, more user-friendly forums, better administration tools to keep track of groups and permissions for Moderators/Administrators, improved support for security questions/passwords, better notices on who has access to what information on the site, and improved support for email notifications.
